

PRANIT RAJ

SENIOR FULL STACK DEVELOPER

Jamshedpur, Jharkhand, India | pranit.raj.dev@gmail.com | +91 98765 43210
linkedin.com/in/pranitraj | github.com/pranitraj | portfolio.pranitraj.dev

PROFESSIONAL SUMMARY

Results-driven **Senior Full Stack Developer** with **6+ years** of hands-on experience architecting, developing, and scaling enterprise-grade web applications. Expertise in the **MERN stack**, Python ecosystems, and cloud-native microservices. Demonstrated ability to lead cross-functional teams, optimize system performance, and deliver impactful solutions in **fintech, e-commerce, and SaaS** domains. Strong advocate for clean code, test-driven development, and mentoring the next generation of engineers. Passionate about leveraging AI/ML integrations and modern DevOps practices to build future-proof digital products.

TECHNICAL SKILLS

FRONTEND	React.js • Next.js • TypeScript • Tailwind CSS • Redux • Material-UI • Vue.js • HTML5/CSS3
BACKEND	Node.js • Express.js • Python • Django • FastAPI • Java (Spring Boot) • GraphQL • REST APIs
DATABASES	MongoDB • PostgreSQL • MySQL • Redis • Elasticsearch • Prisma ORM
DEVOPS & CLOUD	AWS (EC2, S3, Lambda, RDS, SageMaker) • Docker • Kubernetes • CI/CD (Jenkins, GitHub Actions) • Terraform
TOOLS & PRACTICES	Git/GitHub • Agile/Scrum • Microservices Architecture • TDD • System Design • Jest • Cypress

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

TechNova Solutions Pvt. Ltd. | Bangalore, India

Jan 2023 – Present

- Architected and led end-to-end development of a **microservices-based fintech platform** serving **500K+ active users**, achieving 40% improvement in transaction processing throughput and 99.95% uptime.
- Spearheaded the integration of **AI-powered fraud detection system** using Python/FastAPI + AWS SageMaker, reducing fraudulent transactions by 28% and false positives by 25%.
- Mentored and technically guided a team of **5 full-stack developers**; established coding standards, conducted rigorous code reviews, and introduced comprehensive testing culture (Jest + Cypress).
- Optimized critical API endpoints and database queries; implemented **Redis caching layer** and query optimization, slashing average response time from **820ms to 145ms** (82% improvement).
- Designed and deployed event-driven architecture using AWS Lambda, SQS, and EventBridge for real-time notifications and asynchronous processing.

Full Stack Developer

InnovateHub Technologies | Hyderabad, India

Jun 2021 – Dec 2022

- Built and scaled a **B2B SaaS e-commerce platform** from MVP to production using **Next.js, Node.js, PostgreSQL, and Prisma**, processing over **\$2.4M monthly GMV** within first year.
- Implemented **real-time collaboration features** (live cart sharing, team workspaces) using WebSockets, Socket.io, and Redis Pub/Sub, resulting in **65% increase in user engagement**.
- Established robust **CI/CD pipelines** with Docker, GitHub Actions, and AWS ECS, reducing average deployment time from 45 minutes to under 8 minutes (82% faster releases).
- Collaborated closely with product managers and UI/UX designers to deliver pixel-perfect, fully responsive interfaces while maintaining **WCAG 2.1 AA accessibility standards**.
- Integrated multiple third-party services including Stripe, Razorpay, SendGrid, and Twilio; built comprehensive webhook handling and retry mechanisms.

Software Developer

CodeCraft Technologies | Jamshedpur, India

Jul 2019 – May 2021

- Developed and maintained 12+ client websites and internal tools using **React, Express.js, MongoDB, and Tailwind CSS** for SMEs across education, healthcare, and logistics sectors.

- Designed and implemented **RESTful APIs** and GraphQL endpoints; integrated payment gateways (Razorpay, PayU), SMS gateways, and email automation services.
- Participated actively in the complete Software Development Life Cycle — requirements analysis, system design, development, testing, deployment, and post-launch support.
- Refactored legacy jQuery codebase into modern React + TypeScript architecture, improving maintainability and reducing technical debt by an estimated 40%.

KEY PROJECTS

AI-Powered Personal Finance Intelligence Platform | Next.js 14, FastAPI, PostgreSQL, Redis, AWS, Docker, Vercel

Developed a comprehensive personal finance dashboard that aggregates bank data via Plaid API, automatically categorizes expenses using custom NLP/ML models, and provides intelligent budgeting recommendations and savings insights.

Impact: Deployed with auto-scaling backend; currently used by 1,200+ beta users. Open-sourced core ML categorization engine on GitHub (850+ stars).

Enterprise Multi-Tenant E-Learning Platform | Django, React, WebRTC, PostgreSQL, Redis, Kubernetes, AWS

Architected and built a scalable Learning Management System (LMS) supporting live interactive classes via WebRTC, automated quiz generation, progress analytics, and integrated payment processing. Designed for multi-tenancy with role-based access control.

Impact: Successfully handled **10,000+ concurrent users** during peak hours with Kubernetes horizontal pod autoscaling. Delivered to 3 educational institutions.

Real-Time Collaborative Task & Project Management Tool | Next.js, Node.js, Socket.io, MongoDB, Tailwind, TanStack Query

Built a Trello/Jira-like collaborative workspace with real-time updates, drag-and-drop kanban boards, rich text comments, file attachments, and team presence indicators. Implemented optimistic UI updates and conflict resolution.

Impact: Reduced project coordination time by 55% for internal teams at previous company. Featured in Product Hunt launch (Top 5 Product of the Day).

EDUCATION

B.Tech in Computer Science & Engineering

2015 – 2019

National Institute of Technology (NIT), Jamshedpur | CGPA: **8.7/10**

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Software Engineering, Computer Networks, Machine Learning Fundamentals

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **AWS Certified Solutions Architect – Associate** (2023) — Amazon Web Services
- **MongoDB Certified Developer** (2022) — MongoDB University
- **Certified Kubernetes Administrator (CKA)** — In Progress (Expected: Q3 2026)
- **Advanced System Design** — Educative.io (2024)

ADDITIONAL INFORMATION

Languages: English (Professional Proficiency) • Hindi (Native) | **Interests:** Open Source Contributions (GitHub: 2.3K+ contributions), Technical Blogging, AI/ML Experimentation, Hackathons | **Achievements:** Winner – Smart India Hackathon 2018 (Ministry of Education, Govt. of India) • 2nd Place – HackNIT Jamshedpur 2017 • Regular Speaker at Jamshedpur Tech Meetups
